In 9 Yrs, 250 M Indians Escaped Poverty: Niti

UP has seen biggest reduction with 59.4 million moving out of poverty during the period, followed by Bihar

New Delhi: About 2882 million people escaped mutidimensional powerty in the nine years between 2003-14 and 2022.3, with Utar Pradesh and Rajasthan registering the highest decline in poverty showed a discussion paper jointly done by NITI—Auyog and United Nations Developed the property of the property of the property and the property in the property annually. NITI—Auyog member Ramesh Chand said on Monday and Conding to the paper, multidimensional poverty in India declined to 11.28% in 2022.35 from 29.1% in 2013-14, helping India achieve the sustainable development goal 12. which mandates Countries to reduce poverty by half

sy 2030, much before the target. The paper clarified that due to the lack of data for years between 2005- 63 and 2015-16 and and ther 2002-200-200 and powerty levels between 2005- 63 and 2015-16 and

years between 2915-15 and 2020-21 with the proportion of poor in the country down from 24.8% to 14.9% between 2015-16 and 2020-21, on the back of improvements in nutri-tion, years of schooling, smitation and subsidised cookingfuel. The National Multidimensional Poverty Index, developed by the Aayog in 2021, measures simultaneous deprivations across the three equally weighted dimensions of health, education and standard of living that are represented by 12 Sustainable Development Goals aligned indicators.

Source Will Asygs Bocusion Paper and Rajasthan (18.7 million). The UNDP had said in its global Multidimensional Poverty Index report released last year that 415 million people exited multidimen-sional powerty in India in 15 years from 200.65 to 2020.21, with the in-cidence of poverty falling to 16.4% in 2020.21 (rom 55.1% in 2005.05. Following this, NITI Asyog said

New Delhi: Jobs in India may not be a simpacted by artificial intelligence as compared to the rest of the world, according to a new analysis according to a new analysis of the simpacted with the global average, where 40% of the workers in India were in high-exposure jobs compared with the global average, where 40% of the plots were highly exposed to AL in ad-plot workers are craftspeople, skilled agricultural workers, and low-skilled, or "elementary" workers, and low-skilled, or "element

according to their exposure to Al in the country. The study found that 40% of the jobs in emerging markets were exposed to Al, and 25% of jobs in low-income countries were exposed to the technology. In Brazul, 41% of jobs had high exposure to Al. "For emerging market and develo-ping economies, the priority should be laying a strong foun-dation through investments in gitally competent workforce," Georgieva said.

Wholesale Inflation Rises to 0.73% in Dec

DUE TO SURGE IN FOOD INFLATION & A LOW BASE...

Experts feel inflation won't shoot up any further

New Delhi: Wholesale inflation in India rose for a se-cond consecutive month in December mainly due to a surge in food inflation and a low base. The Wholesale Pri-ce Index-based inflation in-ched up to 0.73% in Decem-ber compared with 0.25% in the previous month, datare-leased on Monday showed. However, experts do not

the previous month, datare-leased on Monday showed.
However, experts do not see the wholesale infla-tion shooting up any furt-her in this fiscal as they for-rese a continued easing of commodite prices.
"Despite fading of suppor-tive base, the WPI inflation is expected to remain range bound around 1% for the re-mainder of this fiscal with continued easing in global commodity prices," said Ra-jani Sinha, chief economist, CarreEdge.

WORLD ECONOMIC FORUM 2024

'Geopolitical Tensions, AI may Weaken Global Economy in '24'

About 87% of economists say geopolitics will stoke volatility in global economy

Our Bureau

New Delhi: More than 50% of global chief economists expect the world economy to weaken in 20%, as it grapples with tight financial conditions, geopolitical tension and rapid advances in The Chief Economists Outlook released by the World Economist Forum (WEF) on Monday said about 70% of the economists rection the pace of geoconomic fragmentation will accelerate this year. Regional prospects vury widely and no region is slated for very strong growth in 20%, showed the outley and no region is slated for very strong growth in 20%, showed the outley and no region is slated for very strong growth in 20%, showed the outley and the property of the property o

released. "Two thirds of the economists said industrial policies will create new growth hotgots, but the majority warns of rising fixed strains and divergence between higher- and lower income economies," the WEP said. WEF's ND Saedia Zahidi said: "Though global inflation is easing growth is stalling, financial conditions remaining, financial conditions remaining, and inequalities are rising – highlighting the urgent needfor global cooperating the urgent needfor global coopera-

tion to build momentum for sustainab-le, inclusive economic growth."

Regional Againations
The outlook for South Asia and
East Asia and Pacific remains positive and broadly unchanged from
he last survey, with a strong majority (83% and 86%, respectively)
expecting at least moderate
growth in 2024. However, only 69%
vouch for China's growth provouch for China's growth protion of the production and properindustrial production and property market concerns weigh on the

GEOPOLITICAL RIFTS
About 87% of the chief economists said geopolitics will stoke volatility in the global economy while 80% believed it will impact

stock markets.
As many as 86% reckon that geo-political tensions will increase localisation bid and 80% say it will bolster geo-economic blocs.
